Autonomous Engine: Hermes Agent & AnyDoc AST	Git Verified: obsiagent-boop (obsi.agent@gmail.com)
Core Stack: Claude Code CLI (claude-code)	Architecture: 7 Autonomous AI Employee Nodes

EXECUTIVE SUMMARY & SYSTEM SPECIFICATION

This master monograph details the complete architectural extraction of Ibra AI's viral blueprint: "I Built an AI Content Team (7 AI Employees, 1 Creator)". Powered by Anthropic's Claude Code (claude-code) terminal CLI, this system replaces a 7-person digital media agency with an automated Directed Acyclic Graph (DAG) spanning Research, Hook Synthesis, Scriptwriting, Visual Layout Design, Analytics, Content Planning, and Automated Multi-Platform Publishing.

1. THE 7 AI CONTENT EMPLOYEES ARCHITECTURE

[EMPLOYEE 01/07] THE RESEARCHER — Trend Scout & Market Intelligence

- **Mission:** Uncovers every viral content opportunity before market saturation.
- **Scanning Scope:** Continuously monitors 40+ real-time feeds across Instagram Reels, TikTok, YouTube Shorts, X (Twitter), and Reddit.
- **Core Capabilities:** Competitor surveillance, viral pattern anomaly detection, asset scrapers, niche opportunity discovery.
- **Output Deliverables:** Trend Reports, Topic Priority Lists, High-Retention Video Benchmark Swipe Files.

□ **Workflow Hook:** DISCOVER → COLLECT → SYNthesize → ACTION REPORT

[EMPLOYEE 02/07] THE HOOK WRITER — Pattern-Interrupt Specialist

- **Mission:** Crafts high-retention 0–3 second psychological hooks that stop fast social media scrolling.
- **Psychological Triggers:** Contrarian Counter-Intuition, FOMO, Curiosity Gaps, Secret Unveiling, Urgency.
- **Hook Formulas:** The Negation Hook (*"Stop doing X"*), The Arbitrage Hook (*"Why \$0 beats \$10k"*), The Mystery Number Hook.
- **Output Deliverables:** 10 Hook Variations per topic, 3-Second Retention Confidence Scores, A/B Testing Grid.

□ **Performance Gate:** Discards any hook scoring below 85% predicted 3-second retention.

[EMPLOYEE 03/07] THE SCRIPTWRITER — Conversion & Pacing Architect

- **Mission:** Formulates word-by-word video and carousel scripts optimized for completion rate and retention curves.
- **Structural Blueprint:**
 - 00–03s: High-Energy Pattern-Interrupt Hook
 - 04–15s: Problem Identification & Agitation
 - 16–45s: 3–5 High-Impact Solution Steps / Framework Dropping
 - 46–60s: Call to Action (Keyword Comment Trigger) & Infinite Loop Transition.
- **Output Deliverables:** Word-for-word scripts, spoken timestamps, B-roll visual cues, on-screen text overlays.

THE 7 AI CONTENT EMPLOYEES (CONTINUED)

[EMPLOYEE 04/07] THE DESIGNER & ANIMATOR — Cyber Void Visual Director

- **Mission:** Generates 1080x1350 high-contrast carousel slide layouts, kinetic typography, and 3D visual scene prompts.
- **Tooling Stack:** HTML/CSS WeasyPrint rendering, Remotion, Midjourney / FLUX.1 studio lighting prompts, SVG vector nodes.
- **Design System:** Pitch-Black (#000000), Cyber Cyan (#06B6D4), Emerald (#34D399), Titanium White (#FFFFFF).
- **Output Deliverables:** Production-ready 10-slide carousel PNGs, video motion prompts for Runway Gen-3/Luma.

[EMPLOYEE 05/07] THE ANALYZER & CRITIC — Telemetry & Retention Auditor

- **Mission:** Audits published posts, retention curves, drop-off timestamps, comment sentiment, and CTR.
- **Feedback Loop:** Feeds performance data back into Employee 01 (Researcher) and Employee 02 (Hook Writer) to prune weak topics.
- **Output Deliverables:** Weekly Growth Diagnostics, Drop-Off Anomaly Reports, Algorithmic Virality Scorecards.

[EMPLOYEE 06/07] THE STRATEGIST & PLANNER — Content Calendar Director

- **Mission:** Maps out the 30-day publishing calendar, balancing Top-of-Funnel (ToFu) viral reach with Bottom-of-Funnel (BoFu) lead generation.
- **Content Ratio:** 60% Educational Value / Mind-Blowing Tech, 20% Contrarian Authority, 20% Direct Lead Magnet Calls.
- **Output Deliverables:** 30-Day Automated Content Schedule, Multi-Platform Repurposing Matrix (IG, X, LinkedIn, YouTube).

[EMPLOYEE 07/07] THE PUBLISHER & AUTOMATOR — Distribution & CRM Closer

- **Mission:** Automates multi-platform asset formatting, hashtag injection, and instant DM keyword triggers (ManyChat / n8n / Webhooks).
- **Conversion Loop:** When a user comments "TEAM" or "REPO", Employee 07 automatically delivers the Notion link and records the lead into CRM.
- **Output Deliverables:** Automated DM Deliveries, Lead Capture Notion Rows, Cross-Platform Social Post Distribution.

2. CLAUDE CODE (CLAUDE-CODE) ORCHESTRATION PIPELINE

[TERMINAL ARCHITECTURE] Chaining 7 Agents via Claude Code CLI

In Claude Code, each AI employee is configured as an autonomous sub-agent with dedicated memory, tool access, and typed input/output interfaces:

```
# 1. Initialize Claude Code Multi-Agent Team Workspace
claude-code --task "Build AI Content Engine"

# 2. Agent 1: Research 40 Sources
claude-code "Run Researcher Agent: Scan top 10 AI repos on GitHub and scrape trending Reels"

# 3. Agent 2 & 3: Hook & Script Generation
claude-code "Run Hook Writer & Scriptwriter: Generate 5 video scripts with 3-second pattern interrupts"

# 4. Agent 4: Render Carousel Visuals
claude-code "Run Designer Agent: Render 1080x1350 Cyber Void slides via WeasyPrint"

# 5. Agent 7: Sync to Notion CRM & Schedule
claude-code "Run Publisher Agent: Sync generated PDFs & lead magnets to Notion Hub"
```

3. KINETIC ANIMATION & SCENE PROMPTS (READY FOR RUNWAY / MIDJOURNEY)

[SCENE 1: PATTERN INTERRUPT] 3D Micro-Synapse Cyber Explosion

- **Visual Prompt:** "Hyper-realistic 4K macro camera gliding through an obsidian void. Glowing cyan and emerald neural wires connect into a futuristic terminal displaying '7 AI EMPLOYEES ONLINE'. Volumetric neon haze, cinematic rim lighting, 120fps slow-motion."
- **Kinetic Audio Cue:** Low sub-bass drop followed by a crisp holographic UI boot-up chime.

[SCENE 2: THE MULTI-AGENT SWARM] 7 Holographic Terminal Nodes

- **Visual Prompt:** "Isometric 3D glass server room. Seven distinct glowing neon workstations operating autonomously, exchanging glowing data packets along optical fiber circuits. Deep Cyber Void aesthetic (#000000, #06B6D4)."
- **Kinetic Audio Cue:** High-speed keyboard clacking ASMR with spatial ambient synth drone.
